RULES APPLICABLE ONLY TO CERTIFICATE ACCOUNTS

EARLY WITHDRAWAL PENALTY FOR CERTIFICATE ACCOUNTS

We may impose a penalty if you withdraw any of the principal before the maturity date. For these accounts, the amount of the early withdrawal penalty for your accounts is 90 days dividends. The penalty is calculated as a forfeiture of part of the dividends that have been or would be earned on the account. It applies whether or not the dividends have been earned. In other words, if the account has not yet earned enough dividends or if the dividend has already been paid, the penalty will be deducted from the principal.

EXCEPTIONS TO EARLY WITHDRAWAL PENALTIES FOR
CERTIFICATE ACCOUNTS ONLY

At our option, or when required by law, we may pay the account before maturity without imposing an early withdrawal penalty when an account owner dies or is determined legally incompetent by a court or other body of competent jurisdiction. See your Plan Disclosure if this account is part of an IRA or other tax qualified plan.

RENEWAL POLICY

This account will automatically renew upon maturity for another term as specified in the original account. The dividend rate upon renewal will be the same we offer on new term share accounts on the maturity date, which have the same term, minimum balance (if any) and other features as the original term share account. You have a grace period of 30 calendar days prior to maturity in which you may elect in writing not to renew the account. The credit union may also notify you in writing by mail within 30 days prior to maturity if the credit union elects not to renew this account. If either you or the credit union elect not to renew your account, then upon maturity, your funds will be placed in a credit union dividend bearing account. You may also withdraw all the funds from the account within ten calendar days after renewal without being charged an early withdrawal penalty.
